

Welcome to the Santa Fe Center for Allergy & Environmental Medicine

We believe in comprehensive treatment for all of our patients. Most of our patients have failed treatment with several physicians, with the average being about 10.

Considering the complexity of most of our patients, your initial consultation will take anywhere from 40 minutes to two hours. You have been scheduled today for one hour with Dr. Shrader. The charge for this visit will be \$352.02 (including NM tax – a bit over 8%) and longer visits will cost proportionately more. Either way, payment is expected at the end of your visit today.

As you have been informed, Dr. Shrader is not a Medicare or Medicaid provider, and we cannot accept either Medicaid or Medicare payments. If you are on Medicare, please ask the receptionist for our “Medicare Disclaimer Form”. If you are on Medicaid, please advise us before you fill out our forms.

Dr. Shrader does not participate with any insurance or third party payer, nor do we file insurance forms. However, a completed HCFA form 1500 will be provided, which includes procedure and diagnosis codes that you can send directly to your medical insurance company. We cannot accept reimbursement from any insurance company, and they must reimburse you directly. HMO and PPO plans may not reimburse me – please check!

By signing this form, you are advising us that you understand that payment for all services rendered today – or on any subsequent visit – are due at the time of service.

Thanks, and welcome.
